

# Sam Handelsman

## Full Stack Developer | Software Engineer

Los Angeles, CA | 310-874-3781 | [samhandelsman@gmail.com](mailto:samhandelsman@gmail.com) | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

### TECHNICAL SKILLS

---

**Frontend:** React.js, React Native, Redux, JavaScript, HTML, CSS

**Backend:** Node.js, Express, SQL, PostgreSQL, Python

**DATABASES & TOOLS:** SQLite, MySQL, PostgreSQL, npm, Babel, Git, GitHub, Mocha, Cypress, Docker

**OTHER:** Agile Methodology, RESTful APIs, Responsive Web Design, Unit Testing, UI/UX Design Principle, Figma

### PROJECT EXPERIENCE

---

**Samazon, Full Stack Developer** - Python | Javascript | React | Redux | CSS | HTML | AWS S3

[Live](#) | [GitHub Repo](#)

- Created Samazon, an ecommerce platform like Amazon utilizing Python and Flask for the backend, implemented AWS S3 services for image uploads and employed SQLAlchemy as a powerful ORM (Object-Relational Mapping) tool to optimize database operations, ensuring data integrity, and simplifying complex queries.
- Leveraged a join table and many-to-many relationships between products and shopping carts, enhancing the user experience by simplifying the addition and management of multiple products in their carts.
- Crafted an engaging user interface with CSS and HTML, using dedicated stylesheets for every component on each page, ensuring consistency and ease of maintenance while delivering an intuitive user experience.

**Itsy, Full Stack Developer** - Python | Javascript | React | Redux | CSS | HTML | AWS S3

[Live](#) | [GitHub Repo](#)

- Utilized Python and Flask for the backend, integrating AWS S3 for robust and scalable storage, efficient image uploads, and secure data management, enhancing the platform's reliability and performance.
- Leveraged Redux on the frontend to elevate state management, providing a centralized and predictable state container, simplifying complex data flows and enabling efficient synchronization between components.
- Collaborated through exceptional teamwork and a profound understanding of the tech stack by leveraging Git's branch workflow to facilitate parallel development, streamline code integration, and maintain version control.
- Orchestrated project planning and task management through the effective utilization of an Asana board, ensuring clear communication, efficient task assignment, and meticulous project tracking.

**Connect, Full Stack Developer** - Javascript | React | Redux | Express | Sequelize

[Live](#) | [GitHub Repo](#)

- By adhering to REST principles, these APIs provided standardized and predictable communication between the frontend and backend systems, enhancing scalability and ease of integration with third-party services.
- Implemented a RESTful architecture, seamlessly utilizing HTTP methods including GET, POST, PUT, and DELETE to deliver a comprehensive and fully functional application, resulting in an agile and responsive application.
- Leveraged React and Redux to build dynamic and intuitive UI components resulting in the "Group Creation" feature, employing React's controlled components for form inputs and Redux for centralized state management.
- Developed efficient API endpoints using Express with Sequelize as an ORM, where Sequelize models defined group attributes and relationships, while Express routes ensured secure and efficient data retrieval and storage.

### EXPERIENCE

---

Account Manager - Software High Tech

February 2020 - November 2022

Oracle NetSuite

- Managed a portfolio of over 26 Clients over the course of a fiscal year, handling Enterprise – Mid Market customers with a total portfolio value of over \$2,000,000
- Identified opportunities with customers to support corporate growth and pave a road to company IPO
- Managed all aspects of new sales, upsell, retention and renewal via customer relationship management
- Partnered with NetSuite customers to advance business goals and resolve corporate pains

### EDUCATION

---

App Academy, Full Stack Development

September 2023

Loyola Marymount University, Bachelor of Business Administration, Entrepreneurship, Chinese Minor

May 2019
